

TOMER JACOB

JAVA FULL STACK DEVELOPER

☎ 054-4546060 🔗 <https://tinyurl.com/5aeruj4> @ tomer.jcb65@gmail.com in <https://tinyurl.com/zwaz4kz7>

Hi, I'm Tomer, a Java Full Stack Development graduate with a solid foundation in back-end, front-end, and data structures & algorithms. I am eager to apply my expertise and committed to continuous professional growth. Passionate about problem-solving, feature development, and collaboration, I completed my course with distinction. Please visit my GitHub to review my work and technical skills.

EDUCATION & CERTIFICATIONS

2013 - 2016

Complete matriculation certificate

April 2024 - December 2024 (760 Hours)

John Bryce Training

Java Full Stack Development

During my Java Full Stack course at John Bryce, I developed skills in both server-side and client-side technologies. I used Java, Spring, and SQL for backend development, while leveraging React, HTML, CSS, JavaScript, TypeScript, and Redux for the frontend. My final project, a coupon system, integrated these technologies, showcasing my ability to build a complete full-stack application [link to the project](#) and to my other projects [click here](#)

SKILLS

- Backend: Java (Advanced), Spring Framework (Spring Boot, Spring JDBC, Spring JPA/Hibernate, Spring Web, Spring Cloud, Spring Security, Microservices), RESTful APIs
- Frontend: React, Redux, HTML, CSS, JS, TS
- Databases: MySQL, MongoDB
- Tools: Maven, Postman, Docker, JUnit5
- Languages: Hebrew (Native), English (Fluent)

Grade Average - **99**

PROFESSIONAL EXPERIENCE

Nike Employee 2022 - 2023

- Supported store operations by efficiently organizing and restocking shelves, ensuring that all products were easily accessible to customers.
 - Conducted regular inventory audits to identify stock discrepancies and reduce loss prevention issues.
-

MILITARY SERVICE

Air Force - Security Information 2016 - 2019

- Served in the Israeli Air Force, responsible for access control and issuing security badges for personnel entering the base.
